

[Berkeley Community Action Forum](#)

Tuesday, September 25, 6:30-8:30pm

St. Paul AME Church, 2024 Ashby Avenue (cross street Adeline), Berkeley, CA

The City of Berkeley Public Health Department is committed to open dialogue at the Berkeley Community Action Forum to gather insights from other City agencies, community-based agencies, other partners, and resident groups on actions we can all take to address persistent health inequities here in Berkeley. Following a brief presentation of the 2007 Health Status Report, we will have community member testimony and small group discussions focused around particular topic areas of interest in Berkeley such as Housing, Education, Employment, Asthma, Obesity, Youth Issues, Violence and Environment.

Community and city representatives are invited to be present to participate in discussions and to staff an informational/ resource table at the event. Light refreshments. Dinner will be provided for the first 100 community residents that show up. Childcare and transportation are being coordinated by multiple stakeholders to ensure participation from important members of our community.

Co-sponsors: Bayer, Inc., Berkeley Public Library, South & West Berkeley Community Action Team, South & West Berkeley Health Forum, Lifelong Medical Care, Picante, Ecology Center/Farm Fresh Choice.
